6. How often should I be logging into RenWeb?

The answer will vary from family to family according to the needs of their children. It is important for parents to generally have a sense of what their children are learning and Renweb can assist with this as a function primarily for parents of 5th grade students through 12th grade. However, as a college preparatory school, John Paul the Great Academy emphasizes independent student learning and the importance of the students taking responsibility for organization as they attain academic success.

7. Who can assist me with any questions on RenWeb throughout the year?

Questions about Renweb can be initially directed to the Front Office Staff.
